

## **2,4-D amine plus Diuron 500 2:1 tankmix**

See 2,4-D amine 500 and Diuron 500 for label information.

Rates quoted in HerbiGuide are based on a 2:1 mixture. For example, 1000 mL of the mixture is equivalent to 667 mL of 2,4-D amine plus 333 mL of Diuron flowable.
