

## STORAGE AND DISPOSAL

The method of disposal of the container depends on the container type. Read the Storage and Disposal instructions on the label that is attached to the container.

Store in the closed, original container in a cool, well-ventilated area. **DO NOT** store for prolonged periods in direct sunlight.

### All other non-refillable containers

Triple-rinse containers before disposal. Add rinsings to spray tank. **DO NOT** dispose of undiluted chemical on-site. If recycling, replace cap and return clean containers to recycler or designated collection point. If not recycling, break, crush or puncture and deliver empty packaging for appropriate disposal to an approved waste management facility. If an approved waste management facility is not available, bury the empty packaging 500mm below the surface in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots, in compliance with relevant Local, State or Territory government regulations. **DO NOT** burn empty container or product.

### SAFETY DIRECTIONS

Harmful if swallowed. May irritate the eyes and skin. Avoid contact with eyes and skin. When opening the container and preparing the spray, wear cotton overalls buttoned to the neck and wrist (or equivalent clothing) and elbow length chemical resistant gloves. When using the prepared spray, wear cotton overalls buttoned to the neck and wrist (or equivalent clothing). Wash hands after use. After each day's use, wash gloves and contaminated clothing.

### FIRST AID

If poisoning occurs, contact a doctor or Poisons Information Centre (Phone Australia 13 11 26).

## CAUTION

**KEEP OUT OF REACH OF CHILDREN  
READ SAFETY DIRECTIONS BEFORE OPENING OR USING**

# IMTRADE CYPROCONAZOLE 800 WG FUNGICIDE

**ACTIVE CONSTITUENT:  
800g/kg CYPROCONAZOLE**

**GROUP 3 FUNGICIDE**

## DIRECTIONS FOR USE

CROP	PEST	STATE	RATE/Ha	CRITICAL COMMENTS
Potatoes	Early Blight or Target Spot ( <i>Alternaria solani</i> ), Late Blight or Irish Blight ( <i>Phytophthora infestans</i> )	QLD only	20 to 31g plus  1.6 to 2.5L Chlorothalonil (500g/L)	<b>CAUTION: May cause transient phytotoxicity when applied to plants less than 20cm in height (&lt;12 leaves).</b> Use as a protectant program. Commence spraying when conditions favour disease development.  For rates below 2L apply every 7 days. For rates of 2 to 2.5L apply every 7 to 10 days. Use the higher rates when disease challenge is high. <b>North QLD:</b> Use a minimum rate of 25g of Imtrade Cyproconazole 800 WG Fungicide plus 2L/ha Chlorothalonil (500g/L) for all diseases. Use a higher rate if disease challenge is high.

**NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.**

### WITHHOLDING PERIODS

**Potatoes:** NOT REQUIRED WHEN USED AS DIRECTED.

### GENERAL INSTRUCTIONS

#### MIXING

Add the required amount of Imtrade Cyproconazole 800 WG Fungicide directly to the tank and mix well.

#### APPLICATION

**Boom Application:** Apply by a properly calibrated boom spray using not less than 100 to 400L water/ha.

**Aerial Application:** Apply at least 20L/ha total spray volume. The aircraft should fly as low as practical under the prevailing conditions to minimize drift.

## COMPATIBILITY

Imtrade Cyproconazole 800 WG Fungicide is compatible in tank mixtures with protectant fungicides and most insecticides.

## FUNGICIDE RESISTANCE WARNING

### **GROUP 3 FUNGICIDE**

Imtrade Cyproconazole 800 WG Fungicide is a member of the DMI group of fungicides. For fungicide resistance management, Imtrade Cyproconazole 800 WG Fungicide is a Group 3 Fungicide. Some naturally occurring individual fungi resistant to Imtrade Cyproconazole 800 WG Fungicide and other Group 3 Fungicides may exist through normal genetic variability in any fungal population. The resistant individuals can eventually dominate the fungi population if fungicides are used repeatedly. These resistant fungi will not be controlled by Imtrade Cyproconazole 800 WG Fungicide or other Group 3 Fungicides, thus resulting in a reduction in efficacy and possible yield loss.

Since the occurrence of resistant fungicide is difficult to detect prior to use, Imtrade Australia Pty Ltd accepts no liability for any losses that may result from the failure of Imtrade Cyproconazole 800 WG Fungicide to control resistant.

## RESISTANCE MANAGEMENT

**DO NOT** apply more than 3 consecutive DMI sprays alone, before changing to a fungicide of a different activity group. Apply a maximum of 5 DMI sprays per season.

## PRECAUTIONS

### **Risk Management for Re-Entry**

**DO NOT** allow entry into treated areas until the spray has dried.

## PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT

**DO NOT** contaminate dams, rivers or streams with product or used containers. Minimise spray drift by using low pressure and nozzles which do not give a fine droplet size.

## STORAGE AND DISPOSAL

The method of disposal of the container depends on the container type. Read the Storage and Disposal instructions on the label that is attached to the container.

Store in the closed, original container in a cool, well-ventilated area. **DO NOT** store for prolonged periods in direct sunlight.

### ***All other non-refillable containers***

Triple-rinse containers before disposal. Add rinsings to spray tank. **DO NOT** dispose of undiluted chemical on-site. If recycling, replace cap and return clean containers to recycler or designated collection point. If not recycling, break, crush or puncture and deliver empty packaging for appropriate disposal to an approved waste management facility. If an approved waste management facility is not available, bury the empty packaging 500mm below the surface in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots, in compliance with relevant Local, State or Territory government regulations. **DO NOT** burn empty container or product.

## SAFETY DIRECTIONS

Harmful if swallowed. May irritate the eyes and skin. Avoid contact with eyes and skin. When opening the container and preparing the spray, wear cotton overalls buttoned to the neck and wrist (or equivalent clothing) and elbow length chemical resistant gloves. When using the prepared spray, wear cotton overalls buttoned to the neck and wrist (or equivalent clothing). Wash hands after use. After each day's use, wash gloves and contaminated clothing.

## FIRST AID
