ROVER[®]
Systemic Insecticide

ACTIVE CONSTITUENT: 400g/L DIMETHOATE
(An anti-cholinesterase compound)

GROUP	1B	INSECTICIDE
--------------	-----------	--------------------

For the control of wide range of insect pests on fruits and vegetable crops, pastures, cotton, lucerne, oil seed crops, peanuts and ornamentals as listed in the Directions for Use table

IMPORTANT: READ THESE INSTRUCTIONS BEFORE USING OR OTHERWISE HANDLING THE PRODUCT

Contents: 20 Litres

APVMA Approval No: 65259/55757

Sipcam Pacific Australia Pty Ltd
Level 1, 191 Malop Street
GEELONG VIC 3220

GENERAL INSTRUCTIONS

Before opening, carefully read Directions for Use, Precautionary Statements, Safety Directions and First Aid Instructions.

PROTECTION OF LIVESTOCK

Dangerous to bees. **DO NOT** spray any plants in flower while bees are foraging.

PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT

DO NOT contaminate streams, rivers or waterways with the chemical or used containers.

STORAGE AND DISPOSAL

Store in the closed, original container in a dry, cool, well ventilated area out of direct sunlight. Store in a locked room or place away from children, animals, food, feedstuffs, seed and fertilisers. Protect from direct sunlight and temperatures above 40°C. If storing for more than 2-3 months, avoid temperatures above 30°C. Triple or preferably pressure rinse containers before disposal. Add rinsings to spray tank. Do not dispose of undiluted chemicals on-site. If recycling, replace cap and return clean containers to recycler or designated collection point. If not recycling, break, crush, or puncture and bury empty containers in a local authority landfill. If no landfill is available, bury the containers below 500mm in disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots. Empty containers and product should not be burnt.

SAFETY DIRECTIONS

Product is poisonous if absorbed by skin contact, inhaled or swallowed. Repeated minor exposure may have a cumulative poisoning effect. Avoid contact with eyes and skin. **DO NOT** inhale spray mist. When opening container and preparing spray, wear cotton overalls buttoned to the neck and wrist, washable hat, elbow-length PVC gloves, face shield and impervious footwear. When using the prepared spray, wear cotton overalls buttoned to the neck and wrist and washable hat, elbow length PVC gloves, impervious footwear and half-face respirator with combined dust and gas cartridge (canister). If product on skin immediately wash area with soap and water. After use and before eating, drinking or smoking, wash hands, arms and face thoroughly with soap and water. After each day's use, wash contaminated clothing, gloves, respirator and face shield and if rubber wash with detergent and warm water.

FIRST AID

If swallowed, splashed on skin or in eyes, or inhaled, contact a Poisons Information Centre - Phone Australia 131 126 or a doctor at once. Remove any contaminated clothing and wash skin thoroughly. If swallowed, activated charcoal may be advised. Give atropine if instructed.

MATERIAL SAFETY DATA SHEET

For further information refer to Material Safety Data Sheet (MSDS) which is available from the supplier- or by visiting www.sipcam.com.au.

NOTICE TO BUYER

This product must be used in accordance with the directions for use. Where this product is not a good of a kind ordinarily acquired for personal, domestic or household use or consumption under the Australian Consumer Law, Sipcam's liability for any direct, indirect or consequential loss which you incur, including, without limitation, loss or damage to crop, loss of equipment, property damage, personal injury or death is limited, at Sipcam's option, to the replacement of the product or the supply of an equivalent product. By opening this package, you agree to be bound by these terms. If you do not agree to these terms, please return the entire unopened package intact to Sipcam or the place in which you purchased this product for a full refund.

DIRECTIONS FOR USE:

Restrains

DO NOT USE as a post-harvest or post-harvest quarantine treatment for capsicums or tomatoes.

DO NOT USE as a foliar, post-harvest or quarantine treatment on:

- Tropical or subtropical edible peel fruit [babacos, carambolas (Five Corner), figs and edible peel varieties of guavas, kiwifruit and persimmons].
- Pome fruit [apples, loquats, pears, quinces],
- Stone fruit after petal fall [apricots, cherries, nectarines, peaches, plums, apricot],
- Grapes after commencement of flowering,
- Berry fruit, (other than blackberries, raspberries, bilberries, blueberries and other vaccinium berries)
- Strawberries
- Vegetables, other than those listed below:
Rover may be used on artichoke (globe), asparagus, beans, beetroot, broccoli, cabbage (drumhead varieties only), capsicums, carrot, cauliflower, celery, chilli, peas, potatoes and sweet potatoes, onion, parsnips, radish, rhubarb, sweetcorn, tomatoes for processing, tomaotes (large field grown for fresh consumption, prior to commencement of flowering), turnip and zucchini,
- Cucurbits (other than melons, watermelons and zucchini)

DO NOT apply to any non-food tree crop or plantation (including *Eucalyptus* spp.) by air.

CROP	PEST CONTROLLED	STATE	RATE	WHP	CRITICAL COMMENTS
Abius, Casimiroas (White Sapote), Granadillas, Santols, Sapodillas (Chikus), Wax Jambus	Queensland Fruit Fly	Qld, WA only	75mL/100L water	7 days	Apply when pests appear and repeat as required.
Adzuki Beans, Cowpea, Mung Bean, Navy Bean, Pigeon Pea	Thrips	NSW, WA only	800mL/ha	14 days (H) 14 days (G)	Two treatments between pre-bloom (just before flower bud formation) and pod initiation may be necessary. If infestation is severe or prolonged apply the first spray at the pre-bloom stage and the second spray at full-flowering. Use sufficient water to give good coverage. Toxic to bees. DO NOT spray plants in flower while bees are foraging.
Adzuki Bean	Leafhoppers, Bean Fly, Bean Blossom Thrips	Qld, WA only	800mL/ha or 75mL/100L water	14 days (H) 14 days (G)	Apply when insects appear and repeat as necessary. For Green Vegetable Bug apply at first flowering and repeat 3 weeks later. Do not spray when bees are foraging.
Avocados	Queensland Fruit Fly		75mL/100 litres of water	7 days	Apply as pest populations indicate.
Avocados (Dip)		NSW, WA only	Charge the dip at the rate of 100mL/100 litres of water	nil	Dip the fruit for 1 minute and allow to drain before packing.
Chinese Gooseberries (Inedible peel varieties only), Lychees, Persimmons (American inedible peel varieties only) (Dipping)					Dip the fruit for 1 minute and allow to drain before packing.

CROP	PEST CONTROLLED	STATE	RATE	WHP	CRITICAL COMMENTS
Bananas	Silvering Thrips & Mites	Qld, NSW, WA only	75mL/100 litres of water	7 days	Apply at least 1,000 litres of water per hectare when pests appear. Rover will not control OP resistant mites.
	Paper Wasps	NSW, WA only			Spray when wasp activity reaches high level. Thoroughly cover foliage and stems with spray.
	Fruit Fly			nil	Dip fruit for 10-60 seconds. Top with concentration of 125-150mL/100L.
Beans	Spider Mites, Thrips, Jassids, Green Vegetable Bug, Aphids	All States	75mL/100 litres of water	7 days (G) 7 days (H)	Apply when pests appear and repeat as necessary. For Green Vegetable Bug in beans apply at first flowering and repeat 3 weeks later. QLD ONLY: Some strains of spider mites may be resistant to organophosphorous compounds.
	Bean Fly				Apply 3 and 7 days after crop emergence and then at weekly intervals until blossom.
	Redlegged Earthmite	NSW, Vic, SA, Tas, WA only			Apply when pests appear and repeat as necessary
Beans, Peas	Cow Pea Aphid	NSW, WA only	350-650 mL/ha		Apply when pests appear. Use the higher rate in cold weather.
Beetroot, Celery	Leafmining Fly		800mL/ha or 75mL/100 litres of water	Beetroot 14 days, celery 21 days	Apply when pest damage first appears. Repeat spray if necessary.
Blueberries, bilberries and other vaccinium berries	Aphids, Thrips, Jassids, Spidermites, Redlegged earth mites	All states	75mL/100 litres of water	1 day	DO NOT exceed a maximum number of 7 applications per crop per season with a minimum 21 day interval between applications. Apply in the afternoon when bees are finished foraging. Apply when pest first appears and repeat at 3 weekly intervals or as necessary. Some strains of spidermites are resistant to organophosphorous compounds.
	Strawberry Bug, Rutherglen Bug	Qld, Vic, SA, WA, Tas only			
	Queensland Fruit Fly	NSW, WA only			
Blackberries, raspberries	Aphids, Thrips, Jassids, Spidermites, Redlegged Earthmite	All States		7 days	Apply when pest first appears and repeat at 3 weekly intervals or as necessary. Some strains of spidermites are resistant to organophosphorous compounds.
	Strawberry Bug, Rutherglen Bug	Qld, Vic, SA, WA, Tas only			
Capsicums	Aphids, Thrips, Green Vegetable Bug, Jassids	All States		3 days	Apply when pests appear. DO NOT USE as a post-harvest or post-harvest quarantine treatment. Apply when pests first appear and repeat as required
	Cucumber Fly	NSW, WA only	750mL/ha or 75mL/100L water		
	Fruit Fly				

CROP	PEST CONTROLLED	STATE	RATE	WHP	CRITICAL COMMENTS
Cereals (including maize and sorghum)	Lucerne Flea	WA, Vic, Tas, SA, NSW, only	55-85 mL/ha	4 wks (H) 14 days (G)	Apply 3-5 weeks after the commencement of autumn rains or when outbreak occurs. Use the higher rate in cold weather. Do not spray on bare ground. Allow the crop to emerge before application. Boom spray-apply in 50-100 litres/ha of water. Aircraft and misting machines 20-40 litres/ha.
	Redlegged Earthmite	WA, Vic, Tas, SA only			
		NSW only	85 mL/ha		
	Wingless Grasshopper	All States	75mL/100 litres of water or 750mL/ha		Apply when grasshoppers appear and re-apply as required. In addition to the infested area spray a band of about 20 metres around areas to be protected.
	Brown Wheat Mite	Qld, WA only	90mL/ha		Apply when mites appear.
	Blue Oat Mite	Qld, NSW, WA only			
	Leafhoppers, Cereal Aphids	Qld, WA only	500mL/ha		Apply when pests threaten damage to crop.
Citrus Fruit (except Meyer Lemons, Seville Oranges & Cumquats)	Queensland Fruit Fly	NSW, Vic, Qld, WA only	75mL/100 litres of water	7 days	Qld, NSW, Vic only: Do not use on Meyer lemons, Seville oranges and cumquats. Apply 2 full cover sprays 2 weeks apart 7 weeks and 5 weeks before harvest. If harvesting is delayed a third spray may be required.
	Mediterranean Fruit Fly	NSW only	150mL/100 litres of water		
		Vic, WA only	75mL/100 litres of water		
	Aphids, Thrips	All States			Apply when pests appear
	Bronze Orange Bug	NSW, Vic, Qld, SA, WA only			Apply when pests appear and as necessary
	Wingless Grasshopper	All States			Apply when grasshoppers appear and re-apply as required. In addition to the infested area spray a band of about 20 metres around the areas to be protected.
Cowpeas	Aphids, Mirid Bugs	Qld, WA only	500mL/ha	14 days (G)	Apply when pests appear
	Bean Fly, Leafhoppers		800mL/ha	14 days (H)	
	Thrips		500mL/ha		

CROP	PEST CONTROLLED	STATE	RATE	WHP	CRITICAL COMMENTS
Cotton	Aphids, Spider Mites (incl Red Spider, Twospotted Mite)	Qld, NSW, WA only	500mL/ha	14 days	Apply when pests appear and repeat as required. Use the higher rate for heavy infestations. NOTE: Some strains of spider mites are resistant to organophosphorous compounds. DO NOT use this product where resistant strains are present. DO NOT feed cotton fodder, stubble or trash to livestock.
	Thrips		350-375 mL/ha		
	Wingless Grasshopper		750mL/ha or 75mL/100L water		
	Leafhoppers (Jassids)		350mL/ha		
	Bugs (inc. Green Vegetable Bug, Green Mirids, Apple Dimpling Bug, Brown Smudge Bug, Broken-backed Bug, Rutherglen Bug)		340-500mL/ha		
Cucurbits (Melons, water melons and Zucchini ONLY)	Cucumber Fly	NSW, Qld, WA only	75mL/100 litres of water or	1 day	Apply when pests appear and repeat as necessary
	Aphids, Thrips, Green Vegetable Bug, Jassids	All States	750mL/100 litres per ha Low volume		
Custard Apple	Queensland Fruit Fly	Qld, WA only	75mL/100 litres of water	7 days	Apply every 7-14 days as required during fruit ripening. Usually required only in late season; harvesting at mature green stage overcomes the problem to some extent.
Custard Apple (Dip)		NSW, WA only	Charge the dip at the rate of 100mL/100 litres of water	nil	Dip the fruit for 1 minute and allow to drain before packing.
Duboisia	Thrips	Qld, WA only	75mL/100 litres water as an overall spray	nil	Apply every 7-10 days or as pest population indicates.
Grain Legumes	Spider Mites, Thrips, Jassids, Green Vegetable Bug, Aphids, Bean Fly	Qld, Vic, SA, WA, Tas only	75mL/100L or 800mL/ha	14 days (H)	Apply when insects appear and repeat as necessary. Spray when flowering spikes carrying 20-50 aphids that are easy to find, and when there is evidence of virus disease. Some strains of spider mites are resistant to organophosphorous compounds.
	Redlegged Earthmite	Vic, SA, Tas, WA only	75mL/100L	14 days (G)	
	Lucerne Flea	WA only	85mL/100L		Apply at emergence.

CROP	PEST CONTROLLED	STATE	RATE	WHP	CRITICAL COMMENTS
Grapes	Aphids, Thrips, Jassids, Mites (inc. Spider Mites)	Qld, Vic, SA, WA, Tas only	75mL/100L water	Not required when used as directed	Apply when pests first appear and repeat at 3 weekly intervals or as necessary. Some strains of spider mites are resistant to organophosphorous compounds. DO NOT use after flowering commences.
Celery	Aphids, Thrips, Jassids	All States	75mL/100 litres of water	21 days	Apply when pests appear.
Leucaena	Leucaena Psyllid	Qld, WA only	340mL/ha	14 days (G)	Apply when pest population builds up.
Lentils	Redlegged Earth Mite	NSW, WA only	90mL/ha	14 days (H)	Apply when pests first appear
Litchi	Litchi Erinose Mite	Qld, NSW, WA only	75mL/100L water	14 days (G)	Pre-planting dip: Immerse plants in mixture for 1 minute and drain before planting in the field. Established trees: Apply just before a growth flush and repeat at 14-21 day intervals until all new growth is damage-free
Lucerne	Spotted Alfalfa Aphid, Blue Green Aphid	WA only	150-225 mL/ha	14 days (G)	Apply when aphids begin to build up on the stem or apply at the same rate as soon as possible after cutting the lucerne stand if and when the infestation occurs. Repeat if necessary. VIC: Apply when 20-40 aphids/stem on mature plants and 1-2 aphids/plant in seedlings are present. Spotted Alfalfa Aphids are resistant to some organophosphates in some areas. Consult your district agronomist before spraying
		Qld, NSW, Vic only	150mL/ha		
		Tas only	375mL/ha		
	Blue Green Aphid	SA only			
Leafhoppers (Jassids)		Vic, Qld, SA, Tas, WA only	350 mL/ha		Apply when pests appear and repeat as necessary.

CROP	PEST CONTROLLED	STATE	RATE	WHP	CRITICAL COMMENTS	
Lucerne (cont)	Lucerne Flea	WA, Vic, Tas, NSW, SA only	55-85 mL/ha	14 days (G)	Apply 3-5 weeks after the commencement of autumn rains or when outbreak occurs. Use higher rate in cold weather or on mature pasture. Do not spray on bare ground. Allow the lucerne to emerge before application. Boom spray - apply in 50-100 litres of water/ha. Aircraft and misting machines - apply in 20-40 litres/ha	
	Redlegged Earthmite	WA, Vic, Tas SA only	55-85 mL/ha			
		NSW only	85 mL/ha			
	Wingless Grasshopper	All States	75 mL/100 litres of water			Apply when grasshoppers appear and re-apply as required. In addition to the infested area spray a band of about 20 metres around areas to be protected.
	Blue Oat Mite	NSW, WA only	90 mL/ha			Apply when pests appear
	Bean Fly	Vic, SA, Tas, WA only	340 mL/ha			
	Pea Aphid	Vic, NSW, WA only	150 mL/ha			
Maize	Maize Leafhopper, Thrips	Qld, WA only	500 mL/ha	4 weeks (H)	Apply 2 sprays 5-7 days apart.	
				14 days (G)		
Mangoes, Pawpaw, Passionfruit	Queensland Fruit Fly	Qld, NSW, Vic, WA only	75 mL/100 litres of water	Mangoes 3 days, Pawpaw, passion-fruit 7 days	Apply as a cover spray at first sign of infestation	
	Mediterranean Fruit Fly	WA, Vic, NSW only				
	Aphids (Passionfruit only)	NSW, WA only				
	Cucumber Fly (Paw Paw only)	Qld, WA only				
Mangoes, Pawpaw, Passionfruit (Dips)	Queensland Fruit Fly	NSW, WA only	Charge the dip at the rate of 100 mL/100 litres of water	nil	Dip the fruit for 1 minute and allow to drain before packing.	
Mung Beans	Aphids, Mirid Bugs	Qld, WA only	500 mL/ha	14 days (H)	Apply when pests first appear.	
	Bean Fly, Leafhoppers		800 mL/ha			
Navy Beans	Aphids, Mirid Bugs	Qld, NSW, WA only	500 mL/ha	14 days (G)		

CROP	PEST CONTROLLED	STATE	RATE	WHP	CRITICAL COMMENTS
Oil Seeds	Lucerne Flea	WA, NSW, SA, Tas only	55-85 mL/ha	14 days (H) 14 days (G)	Apply 3-5 weeks after the commencement of autumn rains or when outbreak occurs. Use the higher rate in cold weather. Do not spray on bare ground. Allow the crop to emerge before application. Boom spray - apply in 50-100 litres/ha of water. Aircraft and misting machines - apply in 20-40 litres/ha. Apply when grasshoppers appear and re-apply as required. In addition to the infested area spray a band of about 20 metres around areas to be protected. Apply when pests appear.
	Redlegged Earthmite	WA, Vic, Tas, SA only NSW only			
	Wingless Grasshopper	All States	75 mL/100 litres of water or 750 mL/ha		
	Green Vegetable Bugs, Jassids		350 mL/ha		
Ornamentals (not Chrysanthemums, Begonias, Liquid Amber or Gloxinias)	Aphids, Thrips, Jassids, Spider Mites, Leafhoppers, Azalea Lace Bug, Green Vegetable Bug, Leaf Miners, Green House White Fly	All States	75 mL/100 litres of water	nil	Apply when pests first appear and repeat as necessary. Some strains of Spider mites are resistant to organophosphorous compounds.
	Bronze Orange Bug	NSW, Qld, SA, Vic, WA only			
	Wingless Grasshopper	All States			Apply when grasshoppers appear and re-apply as required. In addition to the infested area spray a band of about 20 metres around area to be protected.
	Woolly aphid	Vic, SA, Tas, WA only			Apply when pest first appears and repeat as necessary
Wild Flowers, Protea	Aphids, Thrips, Leafhoppers, Rutherglen Bug	WA only			Apply when pests appear. Rover will not control OP resistant mites.

CROP	PEST CONTROLLED	STATE	RATE	WHP	CRITICAL COMMENTS
Pastures, Pasture Seed & Forage Crops inc. Clover, Medics, Lucerne, Legumes (for animal feed)	Redlegged Earth Mite, Lucerne Flea	NSW, Vic, Tas, SA, WA only	55-85 mL/ha	14 days (G)	Apply 3-5 weeks after the commencement of autumn rains or when outbreak occurs. Use the higher rate in NSW, and in cold weather and/or heavy infestations in other States. Do not spray on bare ground. Allow the crop to emerge before application. Boom spray - apply in 50-100 litres of water. Aircraft and misting machines - apply in 20-40 litres/ha.
	Wingless Grasshopper	All States	75 mL/100 litres of water or 750 mL/ha		
	Pangola Aphids	Qld, WA only	190 mL/ha

Golden acre, Mammoth red rock

Campra F1, Sunta

Racer Drumhead, Red Dutch

Mammoth Red Rock, All seasons

GENERAL INSTRUCTIONS:

Before opening, carefully read Directions for Use, Precautionary Statements, Safety Directions and First Aid Instructions.

INSECTICIDE RESISTANCE WARNING

GROUP 1B INSECTICIDE

For insecticide resistance management Rover Insecticide is a Group 1B insecticide. Some naturally-occurring insect biotypes resistant to Rover Insecticide and other Group 1B insecticides may exist through normal genetic variability in any insect population. The resistant individuals can eventually dominate the insect population if Rover Insecticide or other Group 1B Insecticides are used repeatedly. The effectiveness of Rover Insecticide on resistant individuals could be significantly reduced. Since the occurrence of resistant individuals is difficult to detect prior to use, Sipcam Pacific Australia Pty Ltd accepts no liability for any losses that may result from the failure of Rover Insecticide to control resistant insects. Rover Insecticide may be subject to specific resistance strategies. For further information contact your local supplier, Sipcam Pacific Australia Pty Ltd representative or local department of agriculture agronomist.

PROTECTION OF LIVESTOCK

Dangerous to bees. DO NOT spray any plants in flower while bees are foraging.

PROTECTIONS OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT

DO NOT contaminate streams, rivers or waterways with the chemical or used containers.

STORAGE AND DISPOSAL

Store in the closed, original container in a dry, cool, well ventilated area out of direct sunlight. Store in a locked room or place away from children, animals, food, feedstuffs, seed and fertilisers. Protect from direct sunlight and temperatures above 40°C. If storing for more than 2-3 months, avoid temperatures above 30°C. Triple or preferably pressure rinse containers before disposal. Add rinsings to spray tank. Do not dispose of undiluted chemicals on-site. If recycling, replace cap and return clean containers to recycler or designated collection point. If not recycling break, crush, or puncture and bury empty containers in a local authority landfill. If no landfill is available, bury the containers below 500mm in disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots. Empty containers and product should not be burnt.

SAFETY DIRECTIONS

Product is poisonous if absorbed by skin contact, inhaled or swallowed. Repeated minor exposure may have a cumulative poisoning effect. Avoid contact with eyes and skin. DO NOT inhale spray mist. When opening container and preparing spray, wear cotton overalls buttoned to the neck and wrist, washable hat, elbow-length PVC gloves, face shield and impervious footwear. When using the prepared spray, wear cotton overalls buttoned to the neck and wrist and washable hat, elbow length PVC gloves, impervious footwear and half-face respirator with combined dust and gas cartridge (canister). If product on skin immediately wash area with soap and water. After use and before eating, drinking or smoking, wash hands, arms and face thoroughly with soap and water. After each day's use, wash contaminated clothing, gloves, respirator and face shield and if rubber wash with detergent and warm water.

FIRST AID

If swallowed, splashed on skin or in eyes, or inhaled, contact a Poisons Information Centre - Phone Australia 131 126 or a doctor at once. Remove any contaminated clothing and wash skin thoroughly. If swallowed, activated charcoal may be advised. Give atropine if instructed.

MATERIAL SAFETY DATA SHEET

For further information refer to Material Safety Data Sheet (MSDS) which is available from the supplier- or by visiting:- www.sipcam.com.au.

NOTICE TO BUYER

This product must be used in accordance with the directions for use. Where this product is not a good of a kind ordinarily acquired for personal, domestic or household use or consumption under the Australian Consumer Law, Sipcam's liability for any direct, indirect or consequential loss which you incur, including, without limitation, loss or damage to crop, loss of equipment, property damage, personal injury or death is limited, at Sipcam's option, to the replacement of the product or the supply of an equivalent product. By opening this package, you agree to be bound by these terms. If you do not agree to these terms, please return the entire unopened package intact to Sipcam or the place in which you purchased this product for a full refund.
