

Paraquat plus Simazine

See individual products, Paraquat and Simazine for more information.

Rates quoted in HerbiGuide are for a 1:1 tank mix of Paraquat 250 plus Flowable Simazine 500. A rate of 1000 mL is equivalent to 500 mL of Paraquat 250 plus 500 mL of Flowable Simazine 500. Similarly a rate of 1000 mL is equivalent to 625 mL of Paraquat 200 plus 278 grams of Simazine 900 granules.

This mixture is synergistic which means that lower rates of the mix are equivalent to higher rates of the individual components.
