DIRECTIONS FOR USE - NSW, QLD & WA ONLY:**RESTRAINTS:**

DO NOT use after 20% of the bolls are open.
 DO NOT mix and apply with ULV insecticides.
 DO NOT apply if rain is expected within 6 hours.

Crop	Pest Controlled	Rate L/ha	Critical Comments
Cotton	Cotton mites (<i>Tetranychus</i> spp)	2.5L	<p>Thorough spray coverage is essential. Apply before mite infestations reach damaging levels, according to the specific stage and condition of the crop and the present level and rate of increase of mite infestations.</p> <p>It is recommended that a maximum of 2 non-consecutive applications of Treble be applied to any one crop each season as recommended by the Cotton Resistance Strategy. Maximum efficacy is not reached until about 2 weeks after spraying, so pre-mature re-spraying should be avoided.</p> <p>Mixing with Synthetic Pyrethroids: When Treble is tank mixed with emulsifiable concentrate formulations of synthetic pyrethroids used for <i>Heliothis</i> control, improvement in control (synergism) of <i>Helicoverpa armigera</i> resistant to synthetic pyrethroids may be achieved.</p>

NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED, UNDER APPROPRIATE LEGISLATION.

WITHHOLDING PERIOD:

DO NOT HARVEST FOR 4 WEEKS AFTER APPLICATION.

DO NOT FEED COTTON TRASH, STUBBLE OR FAILED CROPS TREATED WITH TREBLE TO LIVESTOCK.

GENERAL INSTRUCTIONS**Insecticide Resistance Warning**

For insecticide resistance management Treble™ Miticide is a Group 14A insecticide.

GROUP 14A INSECTICIDE

Some naturally occurring insect biotypes resistant to Treble and other Group 14A insecticides may exist through normal genetic variability in any insect population. The resistant individuals can eventually dominate the insect population if Treble or other Group 14A insecticides are used repeatedly. The effectiveness of Treble on resistant individuals could be significantly reduced. Since occurrence of resistant individuals is difficult prior to use, Nufarm Australia Limited accepts no liability for any losses that may result from the failure of Treble to control resistant insects.

Treble may be subject to specific resistance management strategies. For further information contact your local supplier, Nufarm Australia Limited representative or local agricultural department agronomist.

Application:

Ground Rig: Ensure thorough coverage. Nozzles to be mounted on boom drops hung between the rows with 2 or more upper nozzles at 12-15cm below the plant terminal, angled slightly upwards, and 2 or more nozzles about 25cm lower and angled to spray on the undersides of the leaves in the mid section of plants. Apply in a minimum of 160L/ha spray volume.

Aerial Application: Thorough coverage is essential. Apply under conditions normally suitable for water-based emulsifiable concentrate insecticides. Apply in at least 20 litres of water per ha. The product may cause leaf-reddening and spotting but without any adverse effect to the crop. This may be minimized by spraying in the late afternoon or evening and when the crop is not under stress.

Compatibility:

This product is compatible with the following products: Karate® EC, Astound Duo® and Endosulfan EC insecticides.

PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT:

Dangerous to fish. DO NOT contaminate streams, rivers or waterways with the chemical or used containers.

STORAGE AND DISPOSAL (200L)

Store in the closed, original containers in a cool, well-ventilated area. Do not store for prolonged periods in direct sunlight.

Triple or preferably pressure rinse containers before disposal. Add rinsings to spray tank. Do not dispose of undiluted chemicals on site. If recycling, replace cap and return clean containers to recycler or designated collection point.

If not recycling, break, crush, or puncture and bury containers in a local authority landfill. If no landfill is available, bury the containers below 500 mm in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots. Empty containers and product should not be burnt.

Refillable Container (800L, 1000L & Bulk)

Store in the closed, original container in a cool, well-ventilated area. Do not store for prolonged periods in direct sunlight. Empty contents fully into application equipment. Close all valves and return to point of supply for refill or storage.

Envirodrum 110L Mini Bulk Returnable Container:

Store the original sealed Envirodrum™ in a cool well ventilated area. DO NOT store for prolonged periods in direct sunlight. DO NOT tamper with the Micro Matic valve or the security seal. DO NOT contaminate

the Envirodrum with water or any foreign matter. After each use of the product, please ensure that the Micro Matic coupler, delivery system and hoses are disconnected, triple rinsed with clean water and drained accordingly. When the contents of the Envirodrum have been used, please return the empty Envirodrum to the point of purchase. The Envirodrum remains the property of Nufarm Australia Limited.

™ Envirodrum is a registered trademark of Nufarm Australia Limited.

SAFETY DIRECTIONS

Product is harmful if absorbed by skin contact, inhaled or swallowed. Will irritate the eyes, nose, throat and skin. Repeated exposure may cause allergic disorders.

Avoid contact with eyes and skin. Do not inhale vapour or spraymist. When preparing spray, wear cotton overalls buttoned to the neck and wrist and washable hat, elbow-length PVC gloves, face shield and goggles. When using the prepared spray, wear cotton overalls buttoned to the neck and wrist and washable hat, elbow-length PVC gloves and goggles. If product on skin, immediately wash area with soap and water. If product in eyes, wash it out immediately with water. After use and before eating, drinking or smoking, wash hands, arms and face thoroughly with soap and water. After each day's use, wash gloves, face shield, goggles and contaminated clothing.

FIRST AID

If poisoning occurs, contact a doctor or Poisons Information Centre (Phone 13 11 26). If swallowed, DO NOT induce vomiting. Give a glass of water.

MATERIAL SAFETY DATA SHEET.

For further information refer to the Material Safety Data Sheet (MSDS).
